- **Grade: A2, Percentage – 86%**

Skills

Front-End Development: HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS

Back-End Development: basic Node.js

Programming Languages: C, Python

Projects

Portfolio Website: https://deepkhatri-portfolio.vercel.app/   **Jan 2024 - Feb 2024**

AI Article Summarizer   **Apr 2024 - Apr 2024**
- The AI Article Summarizer is a web application developed using React and Tailwind CSS, integrated with the Summarize Rapid API. Users can input a web article link, and the tool generates a concise summary of the article, making content digestion efficient and accessible.
- Link: https://ai-summarizer-by-dk.vercel.app/

Task Manager   **Mar 2024 - Mar 2023**
- This React-based task manager app allows users to add, delete, and edit tasks. It utilizes local storage to save tasks, providing a seamless and efficient task management experience.
- Link: https://task-manager-by-dk.vercel.app/

Live Web-Chat App   **Jul 2023 - Aug 2023**
- Designed and developed a live web chat app using Node.js & Socket.io.
- Implemented real-time messaging functionality by utilizing Socket.io event-driven communication. Created a user-friendly interface for seamless communication between multiple users.
- Successfully deployed the chat app to a live server, providing a platform for real-time communication. Link: https://livewebchat.onrender.com/
